

AUSTRALIAN JOURNAL OF CHEMISTRY

VOLUME 26

MELBOURNE
1973

AUSTRALIAN JOURNAL OF CHEMISTRY

Published by the Commonwealth Scientific and Industrial Research Organization.
Issued monthly, SA8 per annum.

BOARD OF STANDARDS

The Board of Standards for this Journal is appointed by the Commonwealth Scientific and Industrial Research Organization and the Australian Academy of Science and consists of: Dr. S. D. Hamann (Chairman), Mr. B. J. Walby (Editor-in-Chief), Professor D. G. Catcheside, Professor T. C. Chambers, Professor C. M. Donald, Professor R. A. W. Green, Dr. I. G. Jarrett, Professor F. L. Milthorpe, Professor C. B. O. Mohr, Professor H. R. Wallace, and Dr. J. P. Wild.

ADVISORY COMMITTEE

Acceptance of papers for this Journal is in the hands of an Advisory Committee consisting of a Chairman, appointed by the Executive of CSIRO and the Council of the Australian Academy of Science, and members appointed by the Board of Standards in consultation with the Royal Australian Chemical Institute.

Professor R. A. W. Green (Chairman), Professor S. J. Angyal, Professor D. P. Craig, Professor B. N. Figgis, Professor I. G. Ross, Dr. D. H. Solomon, Professor M. D. Sutherland, and Mr. B. J. Walby (Editor-in-Chief).

The Organization is a signatory to the Fair Copying Declaration, details of which may be obtained from the office of the Royal Society, London.

All enquiries and manuscripts should be forwarded to:

The Editor-in-Chief,
Editorial and Publications Service, CSIRO,
Sixth Floor,
372 Albert Street,
East Melbourne, Victoria 3002

SUBJECT INDEX

	PAGE		PAGE
<i>Acacia myrtifolia</i> , triterpene glycosides of	839	Alcohol + alkane mixtures, thermodynamic properties of	691, 705
Acetamides; formation of nitriles by pyrolysis of <i>N</i> -substituted chloroacetamides	1319	Alcohol-hydrocarbon mixtures, electron solvation processes in	2089
Acetic acid; ionization constant from e.m.f. measurements at 25°	111	Alcohols, tertiary, optical rotation of	879
Acetic acids; alkoxyl migration in the mass spectra of the esters of arylsulphonylacetic acids	2563	Aldehydes, aromatic, formation of arylacetic acids, arylacetamides, and arylidihydropyrroles from	2221
Acetophenones, substituted; selective bromination with dioxan dibromide	1327	Alkynes; formation of disubstituted cyclopentadienone complexes from terminal alkynes and (η -C ₅ H ₅)Co(CO) ₂	1911
Acetylenes; vibrational frequencies, force constants, mean amplitudes, shrinkage effects, and Coriolis constants for CF ₃ C≡CX (where X = Cl, Br, and I)	269	Allylbenzene, kinetics of isomerization of, homogeneously catalysed by palladium(II) in acetic acid	2635
Acetylenic acids; the reaction of arylpropionic acids with carbodiimides	557	Aluminium; fluorocarbon-aluminium compounds: reactions of some chloropolyfluorobenzenes with lithium tetrahydroaluminate	63
<i>Achras sapota</i> , triterpenoids of	1827	Aluminium; fluorocarbon-aluminium compounds: reactions of some fluorotoluene compounds with lithium tetrahydroaluminate	71
Acid anhydrides, dibasic acid diesters, and dibasic acids; reaction with vinylmagnesium chloride	2123	Aluminium; methyl group exchange reactions of trimethylaluminium dimer	739
Acridine orange, spectroscopy of	1617	Aluminium; 6-methyl-2,2'-methylene-dipyridine from α -picoline under the influence of trimethylaluminium	1239
Acridine; synthesis of derivatives of benz[<i>a</i>]acridine and benz[<i>c</i>]acridine	2315	Aluminium-27 nuclear magnetic resonance in aqueous solutions of its chelates with hydroxy carboxylic acids	1889
Acronycine—synthetic studies	2311	Aluminium oxide and barium carbonate, studies of the intermediate phases in the reaction between	2527
Adenine; interaction with H ⁺ , Zn ²⁺ , and Cu ²⁺	2391	Amides; comparison of acidity function and linear free energy basicity constants of amides, phenylureas, and nitroanilines	2083
(±)-Adrenaline, resolution of	2553	Amides in negative-ion mass spectrometry	2719
Adsorption at solid-liquid interfaces; models of the electrical double layer at the oxide-solution interface	1191	Amidine salts, reaction of 4-amino-5-aminomethyl-2-methylpyrimidine with	1599
Adsorption at solid-liquid interfaces; thermodynamics and the adsorption potential	1183		
Agglomerone, synthesis of	2065		
Air after-glow; effect of different gases on the intensity	1837		
Alanine-3-sulphinic acid; reaction with halogens	1771		

	PAGE		PAGE
Amines, tricyclic, synthesis of: hexahydro-1 <i>H</i> -indenoazepines and a hexahydro-1 <i>H</i> -benzo-quinoline and -isoquinoline	1333	Arylations, Meerwein, of 2-furoic acid and methyl 2-furoate	1147
Amino acids; circular dichroism spectra of <i>N,N</i> -dimethyl-L-amino acids ..	1801	Azepines; synthesis of dibenz[<i>c,e</i>]-azepines	1307
(-)- γ -Amorphene, identification of, with (-)- γ -muurolene	2229	Azepines; synthesis of hexahydro-1 <i>H</i> -indenoazepines	1333
Anilides; p.m.r. study of intramolecular hydrogen bonding in <i>ortho</i> -amidoanilides and its relation to the spectra of α -acylamidocinnamamides ..	1263	Azides; some reactions of <i>O,O</i> -diphenylphosphoryl azide	1591
Aniline; metal complexes of 2,2'-dithiodianiline	961	<i>exo</i> -Aziridines; stereospecific formation by decomposition of <i>exo</i> - Δ^2 -triazolines derived from bicyclo[2,2,1]-heptenes	1373
Anilines; kinetic studies of the oxidation of 2,4-dinitroaniline and 2-benzoylaniline with (diacetoxyiodo)benzene ..	1969	Azirine; reaction between 2,3-diphenyl-2 <i>H</i> -azirine and phenyldiazomethane ..	2547
Anilines, <i>ortho</i> -substituted, isokinetic relationship in the oxidation of, with (diacetoxyiodo)benzene ..	2665	Azobenzene derivatives, protonation of; methyl orange and <i>ortho</i> -methyl orange	1005
Anils of pyridine aldehydes; dimerization catalysed by cyanide ion ..	2027	Azobenzenes, substituted, polarography in acetonitrile; effect of "intermediate" strength proton donors	2409
Anisole, cleavage of, by hydrogen chloride in non-aqueous media in presence of inorganic catalysts ..	1369	Azobenzenes, substituted, polarography in acetonitrile; effect of strong proton donors	1669
Anisole derivatives, chemical shifts of the methoxyl in	2303	Azobenzenes, substituted, polarography in acetonitrile; effects of weak proton donors	2417
Ant, Argentine, hydrocarbon constituents of	1131	Azobenzenes, substituted, polarography in acetonitrile; identification of reduction products	1251
Anthracene, dimers of, and its derivatives: spectra	91, 103	Azole aldehyde condensations	1809
Antimony(III); a far-infrared and Raman spectral study of some hexahalogeno-, pentahalogeno-, and tetrahalogeno-antimonate(III) salts ..	1401	Azoles; rates of <i>N</i> -methylation with methyl iodide and dimethyl sulphate ..	1949
Anti-tumour compounds, synthesis of potential	2307	Barium carbonate and aluminium oxide, studies of the intermediate phases in the reaction between	2527
Aromatic hydrocarbons, polycyclic; radical cation formation during the adsorption on platinum oxide ..	221	Benzene, nitration of, in molten salts ..	667
Arsenic; complexes of carbonyl halides of the Group VII transition metals with bis(diphenylarsino)methane ..	529	Benzenesulphonamide; rate of reaction of nitrous acid and 4-aminobenzene-sulphonamide in nitric acid ..	1607
Arsenic(III), reduction of chloro-thallium(III) complexes by	2115	Benzimidazolylalkanols, copper(II) complexes of, magnetic properties of ..	997
Arsenic(V), substitution reactions on; formation and hydrolysis of pentamminearsenatocobalt(III) in aqueous solution	1877	Benzofulvenes; the <i>in situ</i> preparation of 8,8-dimethyl- and 8,8-diphenylbenzo[<i>b</i>]fulvenes and their pericyclic reactions with 2 π -cycloaddends ..	1725
Arsine complexes of tungsten	1487	Benzofuranone; methylation of 3-acylbenzofuran-2(3 <i>H</i>)-ones	1079

	PAGE		PAGE
Benzofurans, substituted, preparation of; pyridine-induced solvent shifts in their n.m.r. spectra	201	Carbamates; thermal decomposition of ethyl <i>N,N</i> -dimethylcarbamate and the effect of <i>N</i> -substitution upon the β -elimination	1259
Benzohydroxamic acids, <i>para</i> -substituted: thermodynamic ionization constants and applicability of Hammett equation	913	Carbazolone; synthesis and some reactions of the <i>N</i> -tosyl derivative of 2,3-dihydrocarbazol-4(1 <i>H</i>)-one	2555
Benzoic acid derivatives, rearrangement ions and proximity effects in the doubly charged ion mass spectra of	195	Carbenes; phenylcarbene and 2-methylene-3,5-cyclohexadienylidene—a duality of mechanism	1705
Benzonorbornadienone, stability of	1751	Carbocation centre: stabilization by adjacent cycloalkyl groups; the uniqueness of cyclopropyl	311
1,4-Benzoquinone dihalides in boron trifluoride diethyl etherate, reactions of	333	Carbolines, n.m.r. spectra of	1501, 1523
Benzosemibullvalene derivatives, formation of, in the photoaddition of diphenylacetylene to methyl 2-naphthoate; a degenerate thermal isomerization of the benzosemibullvalene skeleton	147	Carbon-13 coupling in the e.s.r. spectrum of the pyrene anion in tetrahydrofuran	2055
Betaine hydrochloride, irradiated: the free radical, $N(CH_3)_3^+$	681	Carbon dioxide as a quencher of fluorescence	2715
<i>cis</i> -Bicyclo[4,4,0]deca-2,8-dien-4-one, synthesis of	595	Carbon-sulphur dioxide system, kinetically effective stoichiometry of reactions in	723
Bicyclo[2,2,1]heptadienes, formation and decomposition of Δ^2 -triazolines derived from	619	Carbon tetrachloride and triethylamine, thermodynamic evidence for complex formation between	1143
Bicyclo[3,3,1]nonan-3-one, synthesis of specifically deuterated analogues of	2147	Carbonium ions, stabilities of	301
Bicyclooctatriene; preparation of adducts of 2,5-diphenyl- and 2,5-di(2'-pyridyl)-3,4-diazabicyclo[4,2,0]-octa-2,4,7-triene	389	Carbonyl compounds; reaction of ethenetetracarbonitrile with acyclic β -dicarbonyl compounds and related studies	1551
4,4'-Bipyridine complexes with some uranyl salts	1871	Carvone tetrabromides and carvone tetrachlorides	1283
Bis(diphenylarsino)methane and bis(diphenylphosphino)methane complexes of tungsten	1493	<i>Castanospermum australe</i> , minor sapogenins of; a stereospecific synthesis of methyl 2 β ,3 β -dihydroxy-olean-12-en-28-oate	629
Bismuth(III); a far-infrared and Raman spectral study of some hexahalogeno-, pentahalogeno-, and tetrahalogeno-bismuthate(III) salts	1401	(+)-Catechin 5,7,3',4'-tetramethyl ether; oxidation to (+)-5,7,3',4'-tetramethoxy-3-oxoflavan	2675
2,3- <i>endo</i> - and 2,3- <i>exo</i> -Bornanediols, pyrolysis of cyclic sulphites from	1595	Chemiluminescence; effect of different gases on the intensity of the air after-glow	1837
<i>N</i> -Bromosuccinimide; use in the synthesis of heterocyclic systems	435	Cholesta-2,4-dien-6-one; reaction with hydrazoic acid	603
<i>t</i> -Butyl isopropyl ether, role of <i>t</i> -butyl chloride as an intermediate in the hydrogen chloride catalysed decomposition of	767	Chromenes, hydroboration of	819
		Chromium; spectroscopic studies of exchange interactions in polynuclear transition metal complexes: $[(NH_3)_5Cr(OH)Cr(NH_3)_5]Cl_5 \cdot 3H_2O$ and $[(NH_3)_5Cr(OH)Cr(NH_3)_5]Cl_5 \cdot H_2O$	505, 513

	PAGE		PAGE
Chromium; stability of tricarbonyl- (benzonorbornadienone)chromium ..	1751	Cobalt(III); thallium(III)-induced aquation of some <i>cis</i> -halogeno(amine)- bis(ethylenediamine)cobalt(III) cations ..	1235
Chromium(III); diaquabis(diamine)- chromium(III) complexes	425	Cobalt(V), possible formation of, in molten sodium nitrite	1137
Chymotrypsin, nuclear magnetic resonance studies of the interaction of inhibitors with: <i>N</i> -trifluoroacetyl derivatives of phenylalanine	135	Conductometric study of hydrophobic interactions in aqueous solutions of double long-chain electrolytes ..	2649
Cinnamamides; p.m.r. study of intra- molecular hydrogen bonding in <i>ortho</i> -amidoanilides and its relation to the spectra of α -acylamido- cinnamamides	1263	Conformational analysis about the N-N bond by p.m.r. spectroscopy: <i>N'</i> -derivatives of <i>N</i> -amino-1,2,3,4- tetrahydro-9-oxo-1,4-ethano- naphthalene- <i>endo</i> -2,3-dicarboximide ..	1963
<i>ent</i> -Clerodane diterpenes from <i>Dodonaea</i> <i>boroniaefolia</i> and <i>Cyanostegia</i> <i>angustifolia</i> , structure elucidation of ..	2199	Copper; complexes with 1,10-phen- anthroline-2-carbothioamide or <i>N</i> -phenyl-1,10-phenanthroline-2- carbothioamide	2623
Cobalt; complexes with 1,10-phenan- throline-2-carbothioamide or <i>N</i> -phenyl-1,10-phenanthroline-2- carbothioamide	2623	Copper; infrared, Raman, and n.q.r. studies of some halocuprate(I) complexes	29, 2593
Cobalt; formation of disubstituted cyclopentadienone complexes from terminal alkynes and $(\eta\text{-C}_5\text{H}_5)_2\text{Co}(\text{CO})_2$..	1911	Copper phthalocyanine-4,4',4'',4'''- tetrasulphonic acid, aggregation of the tetrasodium salt of; diffusion studies ..	1545
Cobalt phthalocyanine-4,4',4'',4'''- tetrasulphonic acid, aggregation and reaction with oxygen of the tetrasodium salt of	319	Copper(II) complexes of benzimidazolyl- alkanols, magnetic properties of ..	997
Cobalt; retention of configuration and optical activity in the aquation of the α and β $[\text{Co}(\text{trien})\text{ClOH}_2]^{2+}$ isomers ..	661	Copper(II) complexes with Schiff base ligands containing remote substituents ..	675
Cobalt; thermal degradation of μ -diphenylacetylenebis(tricarbonyl- cobalt)	1791	Copper(II); electron spin resonance study of the dimeric form of bis- (dimethylglyoximate)copper(II) ..	2349
Cobalt(II); optical spectra of the tetrahedral tetrabromocobalt(II) complex ion in molten tetrabutyl- phosphonium bromide	2371	Copper(II), laser Raman and infrared spectral studies on imidazolium complexes of	2059
Cobalt(II); oxidative addition reactions with bis(dithioacetylacetonato)cobalt(II) ..	2299	Copper(II) phthalocyanine-4,4',4'',4'''- tetrasulphonic acid, thermodynamics of the dimerization of	225
Cobalt(III), circular dichroism spectra of asymmetric unidentate amine complexes of	2401	Corrigenda	460, 1380, 1840, 2320
Cobalt(III); formation and hydrolysis of pentaamminearsenatocobalt(III) in aqueous solution	1877	Coumarin derivatives, experiments on the synthesis of some	899
Cobalt(III); reactions of hydrazines with <i>trans</i> -dichlorobis(ethylene- diamine)cobalt(III) chloride, and the isolation and kinetic studies of a chlorobis(ethylenediamine)methyl- hydrazinecobalt(III) isomer	1923	Crystals, molecular, field effects in the saturation region of space charge limited current in	489
		<i>Cyanostegia angustifolia</i> , structure eluci- dation of some <i>ent</i> -clerodane diterpenes from	2199
		Cyclobuta[<i>a</i>]naphthalenes; formation of 1,2-diaryl-8b-methoxy-2a,8b- dihydrocyclobuta[<i>a</i>]naphthalenes in photoadditions involving 1-methoxy- naphthalenes and heterocyclic diarylacetylenes	2129

	PAGE		PAGE
Cyclohexadiene; a synthesis of 4-isopropylcyclohexa-1,4-dienecarbaldehyde	1363	Electrocatalysis, search for surface structural effects in: platinum electrodes	2571, 2587
Cyclohexane-1,2-diols, substituted, mass spectrometric studies of	1277	Electrode processes, effect of irradiation on; the hydrogen peroxide electrode	1443
Cyclohexanones, halogenated, boat conformers of	1977	Electron impact studies; hydrogen-scrambling processes in "doubly charged ion" mass spectra	2019
Cyclohex-2-ene-1,4-diones; reactions of some 5,6-dihalogenocyclohex-2-ene-1,4-diones in boron trifluoride diethyl etherate	333	Electron impact studies; negative-ion mass spectrometry of functional groups, 2-aryl-1,3-oxathians and 1,3-dioxans	2009
Cyclopentadienone; formation of disubstituted cyclopentadienone complexes from terminal alkynes and (η -C ₅ H ₅)Co(CO) ₂	1911	Electron impact studies; negative-ion mass spectrometry of functional groups: collision-induced dissociations of amides	2719
Cystine; reaction with halogens	1771	Electron impact studies; rearrangement ions and proximity effects in the "doubly charged ion" mass spectra of benzoic acid derivatives	195
<i>Dacrydium intermedium</i> , dacrysterone, a new phytoecdysone from	1805	Electron impact studies; scrambling in arylpyridine molecular ions	1043
4,5-Diazafluoren-9-one from oxidation of 1,10-phenanthroline by permanganate	2727	Electron solvation processes in alcohol-hydrocarbon mixtures	2089
Diazomethane, a theoretical investigation of the isomers of	461, 477	Enamines in synthesis of heterocyclics; formation of 1,4-dihydropyrimidine-2-thiols and 2-amino-1,3-thiazines in reactions of ethyl β -aminocrotonates with β -keto isothiocyanates: role of solvents	2453
2,2-Dimethoxypropane and acetic acid in catalysed gas phase decompositions	761	Epoxide, acyclic, systems, hydroxyl participation in; acid-catalysed rearrangements of <i>trans</i> - and <i>cis</i> -3,4-epoxypentan-1-ols, 4,5-epoxyhexan-1-ols, and 5,6-epoxyheptan-1-ols	2521
<i>N,N</i> -Dimethylaniline, nitrosation of, in molten salts	667	Ethane-1,2-diphosphonic acid, irradiated, a paramagnetic species in	1357
Dioxan dibromide, selective bromination of substituted acetophenones with	1327	Ethenetetracarbonitrile; reaction with acyclic β -dicarbonyl compounds and related studies	1551
1,3-Dioxans, negative-ion mass spectrometry of	2009	Ethers, 5-n-alkylresorcinol dimethyl; syntheses via β -keto sulphone intermediates	799
Disulphides, oxidation of monothio-carbonates to	755	<i>Eupomatia laurina</i> , new eupomatenoid lignans from the leaves and wood of	1111
Diterpenes; structure elucidation of some <i>ent</i> -clerodane diterpenes from <i>Dodonaea boroniaefolia</i> and <i>Cyanostegia angustifolia</i>	2199	Evodionol and alloevodionol, synthesis of	2291
Diterpenoids; labda-8,14-dien-13 β -ol	215	Exchange interactions in polynuclear transition metal complexes, spectroscopic studies of	505, 513
Diterpenoids; three new resin acids	209		
Dithiocarbamates, first row transition metal; metal ion and ligand dependency of the redox behaviour of	2533		
<i>Dodonaea boroniaefolia</i> , structure elucidation of some <i>ent</i> -clerodane diterpenes from	2199		
Dyes, spontaneous and stimulated emission from; spectroscopy of the neutral molecules of acridine orange, proflavine, and rhodamine B	1617		

	PAGE		PAGE
Fenton's reagent, studies of oxidations by, using redox titration ..	1015, 1021	Fungicide, drazoxolon, and related arylhydrazonoisoxazolones, structure of acyl derivatives of ..	2705
Ferrocenylalanes; preparation and properties of (η -C ₅ H ₅)Fe(η -C ₅ H ₄ Al ₂ Me ₄ Cl) ..	2297	Fungicides; preparation of 3-methyl-4-(3'-pyridylhydrazono)isoxazol-5-one and related compounds ..	2723
Flavanoid compounds, tricyclic; mechanism and structure in chemical ionization mass spectrometry ..	1577	Furans, annelated; Fries rearrangement of isocresol esters ..	1069
2,4- <i>trans</i> -Flavan-4-ols, preparation of, by oxymercuration-demercuration of flav-3-enes ..	2447	Furans, annelated; methylation of 3-acylbenzofuran-2(3 <i>H</i>)-ones ..	1079
Flavans; oxidation of (+)-catechin 5,7,3',4'-tetramethyl ether to (+)-5,7,3',4'-tetramethoxy-3-oxoflavan ..	2675	Furans, annelated; reactions of 2-vinyl-furans with acetylenic esters ..	1059
Flav-2-enes, hydroboration of ..	819	Furans, annelated; synthetic analogues of usnic acid ..	1093
Flav-3-enes, hydroboration of, and oxidation to 2,4- <i>trans</i> -flavan-4-ols, 2,3- <i>trans</i> -flavan-3-ols, and 1,3-diaryl-propane derivatives ..	809	2-Furoic acid and methyl 2-furoate, Meerwein arylations of ..	1147
Flavones, hydroboration of ..	819	Gaussian basis sets for molecular calculations; effect of basis set size on the calculated wavefunction and a useful GTO basis set ..	1381
Flavylium salts, hydroboration of ..	819	Gaussian lobe basis sets used for molecular calculations, accuracy of ..	1395
Flotation; use of a particulate bed electrode for the electrochemical investigation of metal and sulphide flotation ..	1635	Gaussian trap distribution, space charge limited current theory for ..	927
Fluorescence, carbon dioxide as a quencher of ..	2715	<i>Grevillea robusta</i> ; structure of robustol, a novel macrocyclic phenol ..	2257
Fluorescence decay of aromatic vapours; single vibronic level lifetimes of the isolated naphthalene molecule ..	1159	Group VI transition metals, substituted carbonyl derivatives of ..	43, 655
Fluorescence decay of aromatic vapours; the isolated phenanthrene molecule ..	499	Group VII transition metals, carbonyl halides of ..	529, 1781
Fluorine in n.m.r.; long-range proton-fluorine spin-spin coupling: further evidence for a "direct" mechanism ..	2659	Group VIII transition metals, carbonyl halides of ..	2607
Fluorocarbon-aluminium compounds; reactions of some chloropoly-fluorobenzenes with lithium tetrahydroaluminate ..	63	Guanine, interaction of H ⁺ , Zn ²⁺ , and Cu ²⁺ with ..	2391
Fluorocarbon-aluminium compounds; reactions of some fluorotoluene compounds with lithium tetrahydroaluminate ..	71	Haemodorrin—a phenalenone pigment from <i>Haemodorum distichophyllum</i> ..	1377
Fluorocarbon, aromatic, mixtures; carbon tetrachloride + hexafluorobenzene ..	431	Hormones, insect moulting: dacrysterone, a new phytoecdysone from <i>Dacrydium intermedium</i> ..	1805
Formaldehyde arylhydrazones; reaction with excess formaldehyde ..	1297	Hydrazines, aryl, acetylation of ..	1297
Fungi, extractives of; microbial transformation products of piperitone ..	845	Hydrazines; reactions with <i>trans</i> -dichlorobis(ethylenediamine)cobalt(III) chloride, and the isolation and kinetic studies of a chlorobis(ethylenediamine)-methylhydrazinecobalt(III) isomer ..	1923
		Hydrochloric acid; transport numbers in glycerol-water mixtures at 25°C ..	1797

	PAGE		PAGE
Hydrogen peroxide electrode, effect of irradiation on	1443	Iron(III) oxide, powdered, and some carbonates, changes occurring at surfaces during reactions between ..	1353
Hydrogen-scrambling processes in "doubly charged ion" mass spectra ..	2019	Iron(III); polynuclear acetylacetonato-dimethoxyiron(III)	875
Hydrophobic interactions in aqueous solutions of double long-chain electrolytes, conductometric study of ..	2649	Iron(V); possible formation in molten sodium nitrite	1137
		Isobenzofulvenes	1725
Imidazoles, 1-substituted, thermally induced rearrangement of	2435	Isopimara-9(11),15-diene-3 β ,19-diol from <i>Newcastlia viscida</i>	173
Imidazoles; synthesis of 2-alkyl- and 2-acyl-imidazoles by substitution methods	415	Isoquinoline; a new synthesis of 1-benzyl-1,2,3,4 tetrahydroisoquinoline ..	2063
Imidazolium complexes of bivalent copper and zinc, laser Raman and infrared spectral studies on	2059	Isoxazol-5-one; preparation of 3-methyl-4-(3'-pyridylhydrazono)isoxazol-5-one and related compounds	2723
Indazole series; ring opening of some 1-arylindazole-3-carboxylic acids during decarboxylation	2683	Isoxazol-5-ones; structure of 4-arylaminomethylene-3-methylisoxazol-5-ones	889
Indoleninones; isolation from the hypobranchial glands of marine molluscs of 6-bromo-2,2-dimethylthiindolin-3-one and 6-bromo-2-methylthiindoleninone as alternative precursors to Tyrian purple	2153	(Z)-Jasmone from 2,5-disubstituted furans	2671
Indoles, synthesis and some reactions of the <i>N</i> -tosyl derivative of	2555	Jingullic acid, a triterpene of the lupane series containing a C 28 \rightarrow 19 lactone group	831
Insect moulting hormones: dacrysterone, a new phytoecdysone from <i>Dacrydium intermedium</i>	1805	Ketones; dipole moments of some aromatic diketones	867
Interfaces, solid-liquid, adsorption at, models of the electrical double layer at the oxide-solution interface	1191	Labda-8,14-dien-13 β -ol	215
Interfaces, solid-liquid, adsorption at, thermodynamics and the adsorption potential	1183	Labda-8(17),14-dien-13-ol, transformations of	1815
Iodocuprate(I) complexes, infrared, Raman, and n.q.r. studies of	2593	Lanostenone; two C 8 epimers of 3 β -acetoxy lanost-9(11)-en-7-one	1051
<i>Iridomyrmex humilis</i> , hydrocarbon constituents of	1131	Laser Raman and infrared spectral studies on imidazolium complexes of bivalent copper and zinc	2059
Iron; complexes with 1,10-phenanthroline-2-carbothioamide or <i>N</i> -phenyl-1,10-phenanthroline-2-carbothioamide ..	2623	(\pm)-Laurinterol and related compounds, total synthesis of	345
Iron(II); bis-ligand complexes of 1,10-phenanthroline-2-carbothioamide	521	Laurinterol; approach to the stereospecific synthesis of nordebromolaurinterol	357
Iron(III) alkanoates, magnetic behaviour of some polynuclear methoxide complexes of	2105	Lead bromide + potassium bromide mixtures, fused, electrical conductivity of	733
		Lead malate complexes; cathodic action at the dropping mercury electrode ..	971

	PAGE		PAGE
Learning machine, preliminary classification of mass spectral patterns using a simplified	1955	Methyl orange and <i>ortho</i> -methyl orange	1005
Leguminosae; minor sapogenins of <i>Castanospermum australe</i>	629	Methyl (<i>E</i>)-sinapate, oxidative dimerization of	1571
Lupane series, jingullic acid, a triterpene of	831	Methylbenzenes; side chain nitration of polymethylbenzenes in nitric acid-acetic anhydride mixtures	775
Magnesium; study of transition temperature through mixed crystal formation: orthorhombic zinc sulphate and magnesium sulphate ..	1243	Molecular calculations, accuracy of mixed Gaussian lobe basis sets used for	1395
Magnesium(II), proton magnetic resonance study of trimethyl phosphate exchange on	1227	Molecular calculations, small Gaussian basis sets for; effect of basis set size on the calculated wavefunction and a useful GTO basis set	1381
Malononitrile trimers	2567	Molecular orbital calculations, non-empirical, based on Slater-type orbitals; a restricted use of Gaussian expansions	1151
Manganese, influence of cations on the formation of high oxidation state compounds of, in molten salts ..	2051	Molecules, large, use of atom-atom potentials in the calculation of intermolecular forces between ..	649
Manool, transformations of	1815	Molybdenum; acid dissociation constants of tetracyanohydroxo-oxomolybdate(IV) ion	671
<i>Marsdenia rostrata</i> ; isolation and structure of a new alkaloid, rostratamine ..	1835	Molybdenum, carbonyl nitrosyl halide complexes of	241
Mass spectral patterns; preliminary classification using a simplified learning machine	1955	Monimiaceae; alkaloids of <i>Nemuaron vieillardii</i>	455
Mass spectroscopy, computing methods in; programming for aliphatic amines and alcohols	785	Mössbauer studies, single crystal, determination of the cation distribution in olivine from	231
Meerwein arylations of 2-furoic acid and methyl 2-furoate	1147	(-)- γ -Muurolene, identification of (-)- γ -amorphene with	2229
Melicope extractives, melicopol and methylmelicopol, revision of the structures proposed for	2459	<i>Myoporum deserti</i> , (-)-epingaione, (-)-dehydrongaione, (-)-dehydropingaione, and (-)-deisopropylngaione, toxic furanoid sesquiterpenoid ketones from	375
Menthanes; rearrangements during the bromination of bromomenthanes ..	571	Naphthalene derivatives; conformational analysis about the N-N bond by p.m.r. spectroscopy: <i>N'</i> -derivatives of <i>N</i> -amino-1,2,3,4-tetrahydro-9-oxo-1,4-ethanonaphthalene-endo-2,3-dicarboximide	1963
Mentanones; halogenation of some axial α -bromo- <i>p</i> -menthanones ..	1977	Naphthalene, fluorescence decay of	1159
Mercuric arenesulphonate dihydrates, thermal decomposition reactions of ..	541	Naphthalenes; formation of 1,2-diaryl-8b-methoxy-2a,8b-dihydrocyclobuta-[a]naphthalenes in photoadditions involving 1-methoxynaphthalene and heterocyclic diarylacetylenes	2129
Mercury; thermal decomposition reactions of mercuric arenesulphonate pyridinates	1893		
Mercury(II) halides: adducts with Lewis bases; thermodynamics of metal-ligand bond formation	983		
Mercury(II), spectroscopic study of sulphide, selenide, and telluride complexes of	2615		
Methyl homohygrinate; isolation from <i>Solanum sturtianum</i>	2559		

	PAGE		PAGE
<i>Nemauron vieillardii</i> alkaloids	455	Nickel(II) salicylideneiminato complexes, pyridine adducts of; thermodynamics of metal-ligand bond formation ..	2379
<i>trans,trans-</i> and <i>cis,cis</i> -Nepetalinic acids	2183	Nitrates, molten, cation effects in; influence on the solubility product of silver bromide	1625
<i>Newcastlia viscida</i> , isopimar-9(11),15-diene-3 β ,19-diol from	173	Nitration of benzene in molten salts ..	667
Ngaione; (-)-epingaione, (-)-dehydrongaione, (-)-dehydroepingaione, and (-)-deisopropylngaione, toxic furanoid sesquiterpenoid ketones from <i>Myoporum deserti</i>	375	Nitration of polymethylbenzenes in nitric acid-acetic anhydride mixtures ..	775
Nickel; complexes with 1,10-phenanthroline-2-carbothioamide or <i>N</i> -phenyl-1,10-phenanthroline-2-carbothioamide	2623	Nitrene; rearrangement of 8-phenyl-2-quinolyl nitrene at 530°	2213
Nickel, monothiocarbamate complexes of	1645	Nitriles, formation of, by pyrolysis of <i>N</i> -substituted chloroacetamides ..	1319
Nickel nitrites; complexes of <i>N</i> -substituted propane-1,3-diamines ..	1663	Nitrite; kinetics of oxidation by aqueous bromine	1847
Nickel nitrites; linkage isomerism in complexes of ethylenediamine and <i>N,N'</i> -diethylethylenediamine	1841	Nitrite; kinetics of oxidation by aqueous chlorine	1857
Nickel; two new methylnickel compounds	219	Nitroanilines; comparison of acidity function and linear free energy basicity constants of amides, phenylureas, and nitroanilines	2083
Nickel(II), a ¹ H and ¹⁴ N magnetic resonance study of the exchange of acetonitrile on	255	Nitrobenzenes; reaction of <i>ortho</i> -dinitrobenzenes with sodium borohydride ..	1683
Nickel(II); chelate linkage isomers of (3-hydroxyimino-4,9-dimethyl-5,8-diazadodeca-4,9-diene-2,11-dionato)-nickel(II)	263	4-Nitrobenzoyl chloride; reaction with 1-ethyl-4-methoxycarbonylpyridinyl radical	229
Nickel(II) complexes, copper(II)-promoted solvolyses of; tetradentate Schiff base ligands containing various diamine segments	1475	Nitrones; cycloaddition reactions with carbon disulphide	2177
Nickel(II) complexes, copper(II)-promoted solvolyses of; tridentate and tetradentate Schiff base ligands containing remote substituents	1459	Nitrones; cycloaddition reactions with isothiocyanates	2473
Nickel(II) complexes with Schiff base ligands containing remote substituents	675	Nitrones; cycloaddition reactions with thioketones and the thermal and photochemical properties of some resulting 1,4,2-oxathiazolidines ..	2491
Nickel(II) complexes with some C-alkylethylenediamines; enthalpy and entropy changes for formation ..	977	Nitrous acid and 4-aminobenzene-sulphonamide in nitric acid, rate of reaction of	1607
Nickel(II); copper(II)-promoted solvolyses of nickel(II) complexes of <i>N,N</i> -dialkyl-dithiocarbamates	1207	Norbornene; bridgehead proton spin coupling in <i>endo-cis</i> -5,6-dibromonorbornene	1831
Nickel(II) β -diketonates, trimerization and base addition of; thermodynamics of metal-ligand bond formation ..	1901	Nuclear quadrupole resonance; double pulse method of n.q.r. detection ..	859
Nickel(II); ferromagnetic coupling in bis(monothiocarbamate)nickel(II) complexes	749	Nuclear quadrupole resonance spectroscopy, square wave frequency modulation in	1611
		Nucleophilic substitution, aromatic, by the ambident thiocyanate ion, mechanisms of	273

	PAGE		PAGE
Ocoteine, synthesis of 2,6,7-trimethoxy-3,4-methylenedioxyphenanthrene, a degradation product of	2035	Papaverine <i>N</i> -oxide, photochemistry of ..	437
Olefins, isotope studies of the isomerization of, homogeneously catalysed by palladium, platinum, and rhodium complexes	1935	Perimidine-2-carbaldehyde	449
Olivine, determination of the cation distribution in, from single crystal Mössbauer studies	231	Perturbed hard sphere model, thermodynamic excess functions of regular and related solutions according to some equations of state based on ..	2071
Oxathians; negative-ion mass spectrometry of 2-aryl-1,3-oxathians	2009	<i>Phebalium dentatum</i> , constituents of; structure of a new flavone	409
1,4,2-Oxathiazolidines; thermal and photochemical properties	2491	Phenalenone pigment; haemodorrin from <i>Haemodorrin distichophyllum</i> ..	1377
Oxaziridines, bicyclic, photorearrangement of	2505	Phenanthrene, fluorescence decay of ..	499
Oxaziridines; deoxygenation by sulphur-containing nucleophiles ..	2159	Phenanthrene: synthesis of 2,6,7-trimethoxy-3,4-methylenedioxyphenanthrene, a degradation product of ocoteine	2035
Oxaziridines; reactions with ferrous ions	2515	1,10-Phenanthroline derivatives; bis-ligand iron(II) complexes of 1,10-phenanthroline-2-carbothioamide	521
Oxazolinones; reaction of 2-aryl-4-arylmethylene-2-oxazolin-5-ones with amines	827	1,10-Phenanthroline derivatives; metal complexes of iron, cobalt, nickel, and copper with 1,10-phenanthroline-2-carbothioamide or <i>N</i> -phenyl-1,10-phenanthroline-2-carbothioamide ..	2623
Oxazolinones; reaction of 2-(<i>m</i> -tolyl)-4-arylmethylene-2-oxazolin-5-ones with amines	1701	Phenanthrolines, substituted, and their metal chelates	951
Oxidations by Fenton's reagent using redox titration, studies of ..	1015, 1021	Phenol; oxidation of (<i>E</i>)- and (<i>Z</i>)-2,6-dimethoxy-4-propenylphenol with ferric chloride	585
Oxidative cyclizations; isokinetic relationship in the oxidation of <i>ortho</i> -substituted anilines with (diacetoxyiodo)benzene	2665	Phenols; homogeneous catalysed isomerization of 2-allylphenol and of (<i>Z</i>)-2-propenylphenol in the presence of a palladium catalyst	1529
Oxidative cyclizations; kinetic studies of the oxidation of 2,4-dinitroaniline and 2-benzoylaniline with (diacetoxyiodo)benzene	1969	Phenylalanine, <i>N</i> -trifluoroacetyl derivatives of: nuclear magnetic resonance studies of the interaction of inhibitors with chymotrypsin	135
Oxindoles, pyrolysis of, at 850°C; oxindoles methylated at N 1 and at C 3	369	Phenylcarbene and 2-methylene-3,5-cyclohexadienyldiene—a duality of mechanism	1705
Palladium, monothiocarbamate complexes of	1645	Phenylureas; comparison of acidity function and linear free energy basicity constants of amides, phenylureas, and nitroanilines	2083
Palladium(I), compounds of	2607	Phosphine complexes; dialkylamino-fluorophosphine complexes of rhodium(I)	2335
Palladium(II) in acetic acid, kinetics of isomerization of allylbenzene homogeneously catalysed by	2635	Phosphine complexes of tungsten ..	1487
Palladium(II), spectroscopic study of sulphide, selenide, and telluride complexes of	2615	Phosphines; chromium carbonyl complexes with π -bonded bridging triarylphosphines	43
Palladium(II), vibrational spectra of; the tetranitropalladate(II) ions	1433		

	PAGE		PAGE
Phosphines; reactions of some arene-metal tricarbonyls with triaryl-phosphine and -arsine ligands ..	655	Proflavine, spectroscopy of ..	1617
Phosphorus; some reactions of <i>O,O</i> -diphenylphosphoryl azide ..	1591	Promazine and promazine sulphoxide, study of the electron impact promoted fragmentation of, using specifically deuterated analogues ..	325
Phosphorus trifluoride complexes of rhodium ..	2321	Propane-1,2-diols; oxidation of (<i>E</i>)- and (<i>Z</i>)-2,6-dimethoxy-4-propenylphenol with ferric chloride—a facile route to the 2-aryl ethers of 1-arylpropane-1,2-diols ..	585
Phosphorus-containing paramagnetic species in irradiated ethane-1,2-diphosphonic acid ..	1357	Proteaceae; structure of robustol, a novel macrocyclic phenol from <i>Grevillea robusta</i> ..	2257
Photochemical syntheses ..	147, 2129	Proteaceae; synthesis of derivatives of 5-n-alkylresorcinols and related compounds ..	183
Photon, single, decay spectroscopy ..	1	Proteaceae; two naphthoquinones from <i>Stenocarpus salignus</i> ..	1121
Phthalic acid; ionization constants from e.m.f. measurements at 25° ..	115	Pschorr cyclization in the synthesis of dibenz[<i>c,e</i>]azepines ..	1307
Phthalocyanines, heats of sublimation of ..	2425	Pteridine, aza analogues of; 3-alkoxy-pyrimido[5,4- <i>e</i>]-as-triazines and some derivatives ..	1689
Picoline; metal complexes of α,α' -[dithiobis(α -phenylenenitrilo)]di-2-picoline ..	961	Pyrene anion in tetrahydrofuran, ^{13}C coupling in the e.s.r. spectrum of ..	2055
α -Picoline, 6-methyl-2,2'-methylenedipyridine from, under the influence of trimethylaluminium ..	1239	Pyridine aldehydes, dimerization of anils of, catalysed by cyanide ion ..	2027
<i>Pinus contorta</i> bark, diterpene constituents of ..	2735	Pyridine derivatives; conformations of di(4-pyridyl) disulphide and di(2-pyridyl) disulphide ..	1785
<i>Pinus radiata</i> bark, neutral extractives from ..	2729	Pyridine derivatives; electron impact study of scrambling in arylpyridine molecular ions ..	1043
Piperitone, microbial transformation products of ..	845	Pyridine; 6-methyl-2,2'-methylenedipyridine from α -picoline under the influence of trimethylaluminium ..	1239
Platinum, monothiocarbamate complexes of ..	1645	Pyridinyl; reaction between 4-nitrobenzoyl chloride and 1-ethyl-4-methoxycarbonylpyridinyl radical ..	229
Platinum(II), vibrational spectra of; the tetraniroplatinat(II) ions ..	1433	Pyridyl Schiff bases, mass spectra of ..	1031
Platinum(IV), substituted halo complexes of; vibrational spectra ..	1413	Pyridylmethanes; electric dipole moments and molar Kerr constants of phenyl- and diphenyl-pyridylmethanes ..	2077
Podocarpaceae; heterocyclic derivatives of 12-hydroxypodocarpa-8,11,13-trien-19-oic acid ..	1763	Pyrimidine reactions; dehalogenation of 2-halogenopyrimidines by hydriodic acid ..	443
Podocarpaceae; unusual diterpenoid acetal ..	1821	Pyrimidines; reaction of 4-amino-5-aminomethyl-2-methylpyrimidine with amidine salts ..	1599
Polarizability, linear, simplified <i>ab-initio</i> method calculation of ..	921		
Porphyrins; synthesis of an isomer of coproporphyrin and related compounds ..	2697		
Potassium bromide + lead bromide mixtures, electrical conductivity of ..	733		
Potassium dihydrogen orthophosphate solution, aqueous; thermodynamics at 25°C ..	863		
Potentials, atom-atom, use of, in the calculation of intermolecular forces between large molecules ..	649		

	PAGE		PAGE
Pyrimidine-2-thiois; formation of 1,4-dihydropyrimidine-2-thiols in reactions of ethyl β -aminocrotonates with β -keto isothiocyanates	2453	Sericetin; synthesis of 3-O-methyl-sericetin and related compounds ..	641
Pyrrolic compounds; synthesis of an isomer of coproporphyrin and related compounds	2697	Silane; hydrogen abstraction by trifluoromethyl radicals from monochlorosilane	1269
Quantum effects in dipolar gases ..	855	Silicon; trifluorosilyl derivatives of some transition elements	247
Quinhydrone electrode in formamide, application of	111, 115	Silver bromide, influence of cation effects in molten nitrates on the solubility product of	1625
Quinoline; synthesis of a hexahydro-1H-benzo-quinoline and -isoquinoline ..	1333	Silver chloride; activities in molten chlorides	57
Quinolines; synthesis of some new iodoquinolines	907	Sodium dihydrogen orthophosphate solution, aqueous; thermodynamics at 25°C	863
Radical cation formation during the adsorption of polycyclic aromatic hydrocarbons on platinum oxide ..	221	Solanaceae; isolation of methyl homohygrinate from <i>Solanum sturtianum</i>	2559
Reimer-Tiemann reaction, tropolones and other products from	1337	Solutions, regular and related, thermodynamic excess functions of, according to some equations of state based on the perturbed hard sphere model	2071
Resorcinols; synthesis of derivatives of 5-n-alkylresorcinols and related compounds	183	Space charge limited current theory for a Gaussian trap distribution	927
Rhenium(i), carbonyl halide complexes of	1781	Stenhouse salts and sodium sulphite, reaction between	893
Rhodamine B, spectroscopy of	1617	<i>Stenocarpus salignus</i> , two naphthoquinones from	1121
Rhodium, phosphorus trifluoride complexes of	2321	Steroidal alkaloids of <i>Marsdenia rostrata</i> ; isolation and structure of a new alkaloid, rostratamine	1835
Rhodium(i), dialkylaminofluorophosphine complexes of	2335	(Z)-Stilbenes with bromine, substituent effects on the stereochemistry of reaction of	917
Rostratamine, a new alkaloid	1835	Styrenes; synthesis of <i>ar</i> -nitrostyrenes ..	2067
Robustol, a novel macrocyclic phenol, structure of	2257	Sucrose, mechanism of alkaline degradation of	2041
Robustol trimethyl ether, synthesis of ..	2277	Sulphide flotation, use of a particulate bed electrode for the electrochemical investigation of metal and	1635
Rutaceae; a further examination of the constituents of the bark of <i>Zanthoxylum conspersipunctatum</i> ..	687	Sulphides; conformations of di(4-pyridyl) disulphide and di(2-pyridyl) disulphide	1785
Salicylaldehyde and aliphatic diamines, aqueous equilibria between	1653	Sulphides; nucleophilic cleavage of diaryl disulphides	121
Sapotaceae; triterpenoids of <i>Achras sapota</i>	1827	<i>N</i> -Sulphinylanilines, conformations of ..	421
Schiff base equilibria: aqueous equilibria between salicylaldehyde and aliphatic diamines	1653	Sulphites, cyclic, from 2,3- <i>endo</i> - and 2,3- <i>exo</i> -bornanediols, pyrolysis of ..	1595
Schiff base ligand transfer and rate enhancement by metal ions, kinetics of	2541	Sulphonylacetic acids; alkoxyl migration in the mass spectra of the esters of arylsulphonylacetic acids	2563
Schiff bases, pyridyl, mass spectra of ..	1031		

	PAGE		PAGE
Sulphur dioxide-carbon system, kinetically effective stoichiometry of reactions in	723	Titanium(III); monocyclopentadienyl-titanium(III) complexes of oxygen-containing ligands	47
Sulphur-nitrogen chelating agents; metal complexes of the tridentate ligand 2,2'-dithiodianiline and the quinquedentate α,α' -(dithiobis(o-phenylenenitrilo))di-2-picoline	961	<i>Trametes stowardii</i> , triterpene metabolite of	609
Surface structural effects in electrocatalysis; platinum electrodes	2571, 2587	Transition metal dithiocarbamates, metal ion and ligand dependency of the redox behaviour of some first row	2533
Surfaces, changes occurring at, during reactions between powdered iron(III) oxide and some carbonates	1353	Triazines; 3-alkoxy-pyrimido[5,4-c]-s-triazines and some derivatives	1689
		Triazoles; hydroxyphenylazo-1,2,4-triazoles	1585
Terpinolene tetrahalide derivatives	2235	Δ^2 -Triazolines derived from bicyclo[2,2,1]heptadienes, formation and decomposition of	619
Tetradecane; syntheses of 1,14-bis(3,5-dimethoxyphenyl)tetradecane via β -keto sulphone intermediates	799	<i>exo</i> - Δ^2 -Triazolines derived from bicyclo[2,2,1]heptenes, decomposition of: stereospecific formation of <i>exo</i> -aziridines	1373
Thallium(III); arenesulphinatodiorganothallium(III) derivatives	2355	Triethylamine and carbon tetrachloride, thermodynamic evidence for complex formation between	1143
Thallium(III); reduction of chlorothallium(III) complexes by arsenic(III)	2115	Trifluoromethyl radicals; hydrogen abstraction from monochlorosilane	1269
Thermodynamic excess functions of regular and related solutions according to some equations of state based on the perturbed hard sphere model	2071	Trimethyl phosphate exchange on magnesium(II), proton magnetic resonance study of	1227
1,3-Thiazines; formation of 2-amino-1,3-thiazines in reactions of ethyl β -aminocrotonates with β -keto isothiocyanates	2453	Tropolones and other products from a Reimer-Tiemann reaction	1337
Thiazoles; a reinvestigation of a possible route to 1,2-benzisothiazoles: the reaction between <i>N</i> -benzyl-substituted sulphonamides and trichloromethanesulphenyl chloride in the presence of base	1365	Tungsten, bis(diphenylarsino)methane and bis(diphenylphosphino)methane complexes of	1493
Thiocarbamate complexes; monothiocarbamate complexes of divalent nickel, palladium, and platinum	1645	Tungsten, carbonyl nitrosyl halide complexes of	241
Thiocarbonates; monothiocarbonates and their oxidation to disulphides	755	Tungsten, triarylphosphine and arsine complexes of	1487
Thiocyanate ion, ambident, mechanisms of aromatic nucleophilic substitution by	273	Tyrian purple, isolation from the hypobranchial glands of marine molluscs of 6-bromo-2,2-dimethylthioindolin-3-one and 6-bromo-2-methylthioindoleninone as alternative precursors to	2153
Thiocyanate; kinetics of oxidation by aqueous iodine	1863		
Tin(IV), dielectric loss measurements on some diketone chelates of	871	Uranium; 4,4'-bipyridine complexes with some uranyl salts	1871
Titanium(III); carboxylates of monocyclopentadienyltitanium(III) compounds	941	Uranium hexafluoride; reduction by hydrogen at room temperature	2711
Titanium(III); metal-metal interaction in binuclear bis(cyclopentadienyl)-titanium(III) halides	2101	Uranyl β -diketonates; complexes with sulfoxides	85

	PAGE		PAGE
Uranyl ion; synergistic extraction with β -diketones and sulphoxides	77	<i>Zanthoxylum conspersipunctatum</i> ; a further examination of the constituents of the bark	687
Usnic acid, synthetic analogues of ..	1093	Zinc chloride + β -aminoethanol hydrochloride, fused mixtures; glass transition temperatures, density and conductivity data, and far-infrared spectra of ..	1453
Vanadium; spectrophotometric studies of the metavanadate system	1173	Zinc; study of transition temperature through mixed crystal formation: orthorhombic zinc sulphate and magnesium sulphate	1243
Vanadium(III) chloro and bromo complexes with tetradentate Schiff base ligands	991	Zinc(II) β -diketonates, pyridine adducts of; thermodynamics of metal-ligand bond formation	2537
Verbenaceae; isopimara-9(11),15-diene-3 β ,19-diol from <i>Newcastlia viscida</i> ..	173	Zinc(II), laser Raman and infrared spectral studies on imidazolium complexes of	2059
Vinylmagnesium chloride; reaction with acid anhydrides, dibasic acid diesters, and dibasic acids	2123		
Wallach's dicarvelones, stereochemistry of	883
